Dear Sirs,

At Sheffield Sustainable Kitchens we do everything we can to keep our environmental impact as low as possible. By using GlassEco surfaces we are able to achieve this without compromising on quality and are able to offer a product which fits with our environmental policy.

We have been working with Glasseco for a number of years now and have found their can do attitude to be excellent when dealing with customers. Another advantage of using Glasseco is we are able to make the product as individual as our customers require due to the numerous options offered with bespoke fabrication.

I am very happy with the level of service we receive and the quality and reliability of the installation team is excellent. I would not hesitate to recommend GlassEco.

Rob Cole
