To whom it may concern,

Reference for Glasseco

Glasseco have manufactured and installed work surfaces for several large projects of ours. These include, Mercer, Kings College and Guys Hospital. The product range they offer is fantastic, it stands out from the crowd and most of all it is sustainable.

We are very happy with the level of service provided. At all stages of each project, we have been kept informed of the progress, budgets & deliverables. Installs are carried out by qualified and professional staff, who are insured and extremely helpful.

I would highly recommend, Glasseco and their products.

Yours sincerely

Phil Cracknell

Wagstaff Group
